Comments:

Dear Michaelle Coupe,

This letter is regarding the planning application for The Old Hospital, Field Stile Road, Southwold.

The current occupants of 11 Field Stile Road are four young people aged between 25 and 30. We all work in Southwold or Walberswick. We have been fortunate enough to live in affordable accommodation which is close to our jobs and local amenities. Not everyone our age is so fortunate. For this reason we'd like to show support in using the site to build more affordable houses in Southwold.

But perhaps more importantly we'd like to show support in developing the site for community facilities such as a library, café and crèche, to help children, young parents, the elderly and local businesses. In a town like Southwold

where big businesses are beginning to take over, it's ever more important to retain some of these community values.

We urge you to carefully consider this planning application. A lot of work has gone into coming up with ideas for the proposal and local people would like to see the hospital kept as a facility to benefit everyone in the town.

With thanks from

The Occupants at 11 Field Stile Road
